

ROTOWASH

Founded by Mr. Karl Fink, Rotowash invented compact cylindrical scrubbing machines. Rotowash has been making quality floor cleaning machines since 1971. It is the global market leader in cylindrical scrubbing machines with a production of more than 35,000 units a year.

Rotowash has an ultra modern production plant in Wagna, Austria that automatically gathers all parts and components required for each machine. Quality of manufacturing and engineering is impeccable. Assembly of each machine is done in less than 30 mins due to streamlined operations.

Rotowash's commitment is to develop innovative products and provide quality machines.

Rotowash's modern facility in Wagna, Austria

Rotowash's **robust design is proven to last for years**. The machines are made of solid die-cast aluminium with a heavy duty brushless induction motor that is maintenance free.

With minor repairs, the first machines SuperSteam sold over 10 years ago are still running strong.

Twin cylindrical brush system to enable both forward and backward cleaning operation

Even distribution of water spray to clean floor thoroughly

Rotowash machines deliver a **high-quality wash, scrub, clean** to hard floor, soft floor, carpets and special floorings, leaving the surfaces ready to walk on within minutes. With **up to 300,000 bristles rotating at 650 RPM**, Rotowash delivers exceptional cleaning power with the bristles reaching deep into the irregularities of floor surfaces.

Smooth Floor:
Vinyl Flooring

Carpet

Uneven Floor:
Cement,
Profiled

Escalator

Sports Matting

Wooden

Rotowash brushes out dirt and particles trapped inside carpet which can't be removed through vacuuming, leaving a **clean and bright appearance**.

Why Rotowash Is Superior?

✓ Ergonomic Design

Does not strain operator's back.

✓ Quick Drying

Even distribution of solution with pump system.
Moisture removed in a single pass.

✓ Easy to Use

No tools needed to change brush.

✓ Ideal for Uneven Floor Surfaces

Examples: carpet, anti-slip floor, textile floor and escalators.

✓ Durable

Die-cast aluminium. Rotowash lasts longer.

✓ No Rubber Belt

Able to use alkaline degreasers / carpet cleaners without problems.

Rotowash R45Esc Professional Escalator Autoscrubber

The Rotowash R45Esc is capable of producing high quality cleaning on all floor surfaces including carpets, hard flooring, escalators and travelators, leaving the surfaces clean and dry.

The specially designed brushes enable it to clean deep into the grooves, with minimal water used. Even heavily soiled escalators can be restored, leaving steps dry in minutes, presenting no safety hazard to electrical components.

Made in Austria.

6 Important Benefits

- ✓ Multifunction - clean floors, carpets and even escalators
- ✓ Instant results - cleaner and faster
- ✓ Quick drying - carpets dry within 30 minutes
- ✓ Compact - fit easily into storage closets
- ✓ Easy to use - ladies & elderly have no trouble using it
- ✓ Robust design - proven to last for years

Can be used to clean
Carpets, Hard Floors and Escalators

7 L Water Tank

Last longer in cleaning,
less stops to fill up water
