Caution Signage

Scan For Details

Whether because of rain, spillage or mopping, a wet floor is a dangerous one. Business owners can help prevent injury due to slipping by pro-actively displaying caution signage. This inexpensive item helps alert people to the danger of wet floors.

SuperSteam has an extensive range of caution signage suitable for both indoor and outdoor use, and comes in foldable or solid and even door mounted options!

TIPS

GOOD PRACTICES IN USING CAUTION SIGNAGE

It is advisable to display more than 1 signboard. For example, when mopping, you should put one signboard each at the start and the end of the mopping area.

Also, put at least 4 caution cones with a plastic chain to cordon off the ground area when cleaning from heights. Caution signage is very affordable and absolutely essential in today's regulatory environment.
