

# BATTERY-OPERATED CART (BOC)

**NEW  
PRODUCT**

## Jumbo 24V1 *Mobile & Diesel-Powered*

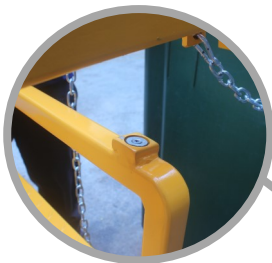

As a mobile towing cart, Jumbo 24V1 is designed to manoeuvre easily in HDB estates, warehouses, industrial parks, condominiums etc. Its tough and rugged body is built to last for years.

Specially designed for Singapore.

### 6 Important Benefits

- ✓ Strong motor for powerful drive up slopes
- ✓ Solid full metal construction
- ✓ Extra stability due to low centre of gravity
- ✓ Integrated tow hook with magnetic catch
- ✓ Full LED front and beacon light come standard
- ✓ Extended running time with Trojan USA 260 Ah batteries (normal 225 Ah)

Cleaning Machines

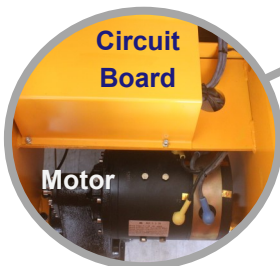

**Magnetic Catch**  
Tow hook secured during transportation

**LED Lights**  
Bright and lucent for lighting and warning purpose

**Wide Seat Fit Two People**  
Two people can sit at the same time for transportation

**Three Types of Brakes**  
1. Hand brake  
2. Hydraulic brake  
3. Electric brake motor

**Superior Engineering Design**  
Protected circuit board and oversized brushless induction motor.

**Trojan 260 Ah Battery**  
Extended running time with powerful 260 Ah batteries compared to the industry norm of 225 Ah

**Integrated Tow Hook (Factory Fitted)**  
Tow with hook, chain or both!

**Wide body for lower CG and thus better stability!**

**Fits most bin designs in Singapore**

**Cleaning Machines**

**Accessories**

Item	SKU No.
Battery Charger 24V 30A	4234-Z-YC-2430
Trojan Battery 6V 260Ah	0224-Z-BT145W

Jumbo 24V1 is supplied complete with 1 charger and 4 batteries.

**Technical Specifications**

Machine Name	Jumbo 24V1
Machine Type	Towing Battery-Operated Cart
SKU No.	4283-800001
Machine Dimensions (cm)	219 (L) x 78 (W) x 118 (H)
Weight (with batteries)	470 kg
Voltage	24V / 260 Ah
Motor	3.2 kW AC Motor
Tyre	15 x 4.5 – 8 tyre
Brake	Foot operated parking brake
Running Speed (no load)	14 km / h
Running Speed (full load)	8 km / h
Radius of Turning Circle	1850 mm
Ground Clearance	118 mm
Rated Load	300 kg
Sound Level	70 dB

**Ampere-hour**

A higher battery Ah can get your towing BOC to run longer after a full charge!
