

BATTERY-OPERATED CART (BOC)

BRAND: SUPERSTEAM

MODEL:

Jumbo 24V1 Lithium-ion Battery Powered
Mobile & Battery-Powered

NEW PRODUCT

As a mobile towing cart, Jumbo 24V1 is designed to manoeuvre easily in HDB estates, warehouses, industrial parks, condominiums etc. Its tough and rugged body is built to last for years.

Specially designed for Singapore.

6 Important Benefits

- ✓ Strong motor for powerful drive up slopes
- ✓ Solid full metal construction
- ✓ Extra stability due to low centre of gravity
- ✓ Integrated tow hook with magnetic catch
- ✓ Full LED front and beacon light come standard
- ✓ Lithium-ion Battery

Cleaning Machines

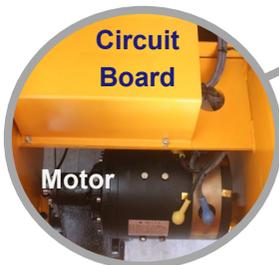

Magnetic Catch
Tow hook secured during transportation

LED Lights
Bright LED lights for high visibility

Wide Seat Fits Two People
Two people can sit at the same time for transportation

Three Types of Brakes
1. Hand brake
2. Hydraulic brake
3. Electric motor brake

Superior Engineering Design
Protected circuit board and oversized 3.2 kW brushless induction motor

Lithium Ion Battery

Hook

Chain

Hook + Chain

Integrated Tow Hook (Factory Fitted)
Tow with Hook, Chain or Both!

Wide Body for Lower Centre of Gravity
Better Stability!

Can Tow Up to 2x 660L Bins
Design in Singapore

Item	SKU No.
Lithium Ion Battery Charger 29.2V 30A	4605-Z-QY1200S
Lithium Ion Battery 25.6V - 210Ah	4604-Z-P24210

Jumbo 24V1 Lithium Battery Set supplied complete with 1 Lithium Charger & 1 Lithium Battery

Technical Specifications

Machine Name	Jumbo 24V1
Machine Type	Towing Battery-Operated Cart
SKU No.	4283-800001
Machine Dimensions (cm)	219 (L) x 78 (W) x 118 (H)
Weight (with batteries)	470 kg
Voltage	24 V / 260 Ah
Motor	3.2 kW AC Motor
Tyre	15 x 4.5 – 8 tyre
Brake	Foot operated parking brake
Running Speed (no load)	14 km / h
Running Speed (full load)	8 km / h
Radius of Turning Circle	1850 mm
Ground Clearance	118 mm
Rated Load	300 kg
Sound Level	70 dB

Ampere-hour

A higher battery Ah can get your towing BOC to run longer after a full charge!
